

EduLawn Care Landscape Services

Spring Services

- Spring Cleanup (March - April)
 - Pruning and shaping of trees and shrubs, clearing out dead branches, and preparing beds for the season.
- Mulch Installation (March - April)
 - Weed removal and inspection of weed barriers, followed by mulch installation to refresh beds.
- Mulch Supplemental
 - Application of pre-emergent treatments to prevent weed growth in mulched areas (additional cost).
- Irrigation Startup (April - May)
 - Testing and starting irrigation systems, inspecting sprinkler heads, rain gauges, and scheduling repairs as needed.

Summer Services

- Turf Management (April - November)
 - Weekly mowing, edging, trimming, and blowing, with frequency adjustments based on weather.
- Tree, Shrub, & Plant Care (May, July, October)
 - Regular pruning and trimming to keep plants healthy and well-shaped.
- Planting Bed Weeding (March - November)
 - Bi-weekly weeding of planting beds to maintain a clean and attractive landscape.
- Irrigation Checks (May - October)
 - Monthly checks for broken sprinkler heads, line breaks, and spray coverage, along with any necessary adjustments.

Fall Services

- Fall Cleanup (November - December)
 - Collection and removal of fallen leaves, cutting down of perennials, and preparing landscape for winter.
- Core Aeration (September - October)
 - Annual aeration to promote soil health and improve lawn durability.
- Fall Overseeding (September - October)
 - Overseeding to encourage a thick, healthy lawn for the upcoming year.
- Irrigation Winterization (October - November)
 - Purging irrigation lines of water, lowering sprinkler heads, shutting off timers, and preparing systems for winter.

Year-Round Lawn Treatment

- Lawn Treatment Applications
 - Includes crabgrass, broadleaf weed, and nutsedge control; fertilizer applications; disease prevention; lime and grub control; and soil sampling for comprehensive lawn health.
- Lawn Treatment Supplemental Options
 - Bermuda grass suppression, seasonal potassium, organic soil conditioner, and soil amendments are available as needed (priced per service)
